

SHIRE OF CORRIGIN HERITAGE LIST

FINALLY ADOPTED BY THE CORRIGIN SHIRE COUNCIL ON 20 JULY 2021

Place Name	Street Name	Street Number	Lot Number	Locality	Description	Statement of Significance	Management Category
Corrigin Town Hall	Goyder Street	21	70	Corrigin	The building is constructed of locally made Corrigin bricks. The architectural style is representative of classical architecture of the period. Elements of its style include symmetry of the facade, correct use of order and components, a pediment entrance, Greek columns (ionic), and spacious interiors facilitated by modern materials. The expansive hall features an impressive, curved span ceiling and decorative proscenium. The foyer originally had a lady's cloakroom on the south side of the entry, which are now toilet facilities. A bio box is located above the foyer for screening movies. Behind the stage are small dressing rooms. The kitchen is an extension fitted out with modern facilities.	The Corrigin Town Hall is a fine example of its architectural style of which few examples remain in the State. It is a unique rural example of its style of architecture. The historical and social significance of the place to the community of Corrigin is considerable.	Grade 'A' - A place of exceptional cultural heritage significance to the Shire of Corrigin and the State of Western Australia.
Corrigin Road Board Offices (former)	Goyder Street	21	71	Corrigin	The classical frontage is balanced with the entry to one side. The entry is defined by pilasters, decorative parapet with the name embossed. The arched entry space is replicated by the two balanced window openings on the street front. The front of the building is rendered and painted. The place is constructed of local stone and local Corrigin brick quoins.	The place is significant in representing the beginnings of the role of the Road Board in the development of Corrigin. The architectural style is a fine example of civic architecture of the period, and use of local materials is significant. The place contributes to the streetscape and the character of the Corrigin townsite and demonstrates changing ways of life through the various functions that have taken place.	Grade 'A' - A place of exceptional cultural heritage significance to the Shire of Corrigin and the State of Western Australia.
Railway Water Tank & Stand	Connelly Parade	No street address number assigned.	522 being Crown Reserve No.47959	Corrigin	A 12 metre high water tower with a timber platform supporting a 113.6 kilolitre (25,000 gallon) corrugated iron	The place illustrates the steam-powered era of rail transport in Western Australia and is the only water tower and tank remaining along the Narrogin to	Grade 'A' – A place of considerable cultural heritage significance to the Shire of Corrigin.

					<p>round water tank with a 7 meter diameter.</p>	<p>Merredin line. It is the best example of its type in the wheatbelt and one of only a few remaining in the State. The place is a substantial landmark which contributes to the townscape and character of Corrigin, represents the development of Corrigin, and the growth and decline of railways in the Wheatbelt. The tank was constructed as part of the depot junction station halfway between Merredin and Narrogin stations and is a large historic element of a once busy railway line that operated with steam trains from 1913 to circa 1970. The place is a significant reminder of the infrastructure required to run and maintain a steam train service. It is a substantial landmark and, with its strong historic associations, contributes to Corrigin people's sense of place.</p>
